DETAILED ACTION

Terminal Disclaimer

1. The terminal disclaimer filed on 25 February 2003 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of U.S. Patent No. 5,911,494 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Claim Objections

2. Claims 15-18 are objected to because of the following informalities: there is lack of antecedent basis for "said lighting device" or "said light emitting diode lighting device".

Appropriate correction is required.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 14 and 16-19 are rejected under 35 U.S.C. 102(b) as being anticipated by Chien [US 5,485,358].

Regarding claim 14, Chien discloses a hat with a crown and a bill, and LEDs apparatus [04] containing within a single house [02'] being permanently attached to the crow (figures 1 and 6, column 2 lines 20-23 and lines 60-65).

Regarding claim 16, Chien discloses an array of LEDs [04] (figure 1).

Regarding claim 17, Chien discloses two arrays of LEDs [04] at a single trap [02 and 02'] (figure 1).

Regarding claim 18, Chien discloses a plurality of LEDs [04] (figure 1).

Regarding claim 19, Chien discloses a plurality of LEDs [04] to emit a single color spectrum (figure 1, column 2 lines 29-31).

Allowable Subject Matter

5. Claims 15, 20 and 21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter:

Claim 15, the lighting apparatus further comprises a lens cover having a series fixedly attached hooks and fixedly attached loops.

Claim 21 is dependent on claim 15.

Claim 20, the array of light emitting diodes emanates more than one color spectrum.

The limitations discussed above are neither disclosed nor suggested by the prior art of record.

6. Claims 1-13 and 22 are allowed.

Response to Arguments

7. Applicant's arguments, see pages 7-10, filed 25 February 2003, with respect to claim 20 have been fully considered and are persuasive. Therefore, the rejection of claim 20 has been withdrawn.

The applicant has amended claim 14, however claim 14 is unpatentable and it has been set forth as above.

The applicant has filed the terminal disclaimer; therefore the double patenting rejection has been withdrawn.

Conclusion

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of
